Proposed claim amendment - USPN 10/030,561

Claim 1 (currently amended). A mobile security cabinet for engagement with an automatic dispensing machine, the mobile security cabinet comprising a plurality of reception regions for receiving and engaging with containers, each container including delivery means for delivering a spoiling agent to spoil the contents of the container, the security cabinet further comprising at least one sensor for detecting an attempt to open the cabinet or an attempt to remove a container, and a controller responsive to the at least one sensor for initiating spoiling of the contents of the containers via the delivery means, the cabinet further including a pick unit for the dispensing machine such that the mobile security cabinet can be engaged with a dispensing machine [without exposing] with said containers [,] remaining enclosed within the mobile security cabinet, and the contents of the containers are made available to the automatic dispensing machine via the pick unit.

P. 7, Paragraph 2, C1

*applicant's containers/cassettes
are loaded in (i.e. therefore
removable).*
